~ Starting with your arrival, you will feel the peace, serenity and healing of beautiful Peaceful Acres Horses facility.

~ We will start each session with a short explanation about quantum healing, including scientific research which explains its effectiveness.

~ Then, we will experience group and individual healing experiences facilitated by Avis Burnett.

~ Lastly, Nanci will facilitate an inclusion of the horse or horses which have joined us.

~ Throughout the session, we will be in the presence of the wisdom, creativity, ingenuity, love and healing power of one or more horses. We will end, however, with a special communion with and blessing for our Equine assistant(s).

* Each participant will receive a 5 - 10 minute focused healing experience as other participants hold the energy. Quantum law explains that "a healing for one is a healing for all", so these experiences are always potent for everyone.
